

Cloud Synergy Service Level Agreement

This Cloud Synergy Service Level Agreement (“SLA”) sets forth the service levels provided by Cloud Synergy with respect to Cloud Synergy’s services (the “Cloud Synergy Service”) provided under the terms of the Cloud Synergy Customer Agreement (the “Customer Agreement”) separately agreed between the applicable Cloud Synergy entity (“Cloud Synergy”, “we”, “us” or “ours”) and you (“you” or “your”). Unless otherwise provided herein, this SLA is subject to the terms of the Customer Agreement and capitalized terms will have the meaning specified in the Customer Agreement. We reserve the right to change the terms of this SLA in accordance with the Customer Agreement.

1. Maintenance

You acknowledge that the Cloud Synergy Service may be unavailable due to maintenance performed by Cloud Synergy. Cloud Synergy will use reasonable efforts to schedule maintenance during non-peak usage hours. Cloud Synergy’s scheduled maintenance for the Cloud Synergy Service (as well as any unscheduled, emergency maintenance, to the extent Cloud Synergy is able to provide any advance notice) will be notified to you via email. We will endeavor to limit actual maintenance outages to the minimum necessary to provide a consistent and reliable Cloud Synergy Service to you.

2. Service Availability

Cloud Synergy will use commercially reasonable efforts to ensure the Cloud Synergy Service is available in accordance with the Monthly Uptime Percentage. The “Monthly Uptime Percentage” is calculated by subtracting from 100%, the average of the Error Rates from each five-minute period in the monthly billing cycle. “Error Rate” means: (i) the total number of internal server errors returned by Cloud Synergy as error status “Internal Error” or “Service Unavailable” divided by (ii) the total number of requests for the applicable request type during that five-minute period. We will calculate the Error Rate for basic services (read / write / delete) for each Cloud Synergy region, from multiple external locations. Failure from more than two of these locations for three consecutive attempts one minute apart, constitutes an internal service error. The calculation of the number of internal server errors will not include errors that arise directly or indirectly as a result of any of the SLA Exclusions specified in Section 3 below.

If availability is impacted by factors other than those used in our calculation of the Error Rate, then we may issue a Service Credit considering such factors at our discretion.

3. SLA Exclusions

This SLA does not apply to any unavailability, suspension or termination of the Cloud Synergy Service, or any other Cloud Synergy Service performance issues: (i) caused by factors outside of our reasonable control, including any force majeure event or Internet access or related problems beyond the demarcation point of the Cloud Synergy Service; (ii) that result from any actions or inactions of you or any third party; (iii) that result from your equipment, software or other technology and/or third party equipment, software or other technology (other than third party equipment within our direct control); (iv) that result from scheduled or emergency maintenance activities for the Services; (v) arising from our suspension and termination of your right to use the Cloud Synergy Service in accordance with the Customer Agreement, or (vi) Cloud Synergy's scheduled maintenance, which will be notified to you via the Cloud Synergy Service or at status.CloudSynergy.com, as well as any unscheduled emergency maintenance.

Further, all test, development, beta, sandbox and other non-production environments are expressly excluded from this SLA, and no Service Credits shall be available for unavailability of any such environment.

4. Calculation of Service Credits

In the event Cloud Synergy doesn't meet the Monthly Uptime Percentage (except due to any SLA Exclusions), then upon your written request, we will provide you with a credit against your standard fees for the Cloud Synergy Service ("Service Credit"). Service Credits are calculated as a percentage of the total fees paid by you for the Cloud Synergy Service for the billing cycle in which the error occurred, as set forth below.

A Service Credit will be applicable and issued only if the credit amount for the applicable monthly billing cycle is greater than one dollar (1 EUR). We will apply any Service Credits only against future payments otherwise due from you for the Services. We may, at our option, elect to issue the Service Credit to the credit card you used to pay the fees during the billing cycle in which the error occurred. Service Credits may not be transferred or applied to any account other than the account in which the error occurred, as set forth below.

Service Credits

Monthly Uptime Percentage	Service Credit Percentage
Equal to or greater than 99.0% but less than 99.9%	5%
Less than 99.0%	10%

You must be current on all payments to Cloud Synergy in order to be eligible for Service Credits. The aggregate maximum number of Service Credits to be issued by Cloud Synergy to you in a single billing month will not exceed 50% of the amount due by you for the applicable Cloud Synergy Service for the applicable month. Service Credits will be made in the form of a monetary credit applied to future use of the Cloud Synergy Service.

Your sole and exclusive remedy for any unavailability, non-performance, or other failure by us to provide the Services is the receipt of a Service Credit (if eligible) in accordance with the terms of this SLA.

Credit Request and Payment Procedures

To receive a Service Credit, you must submit a claim to support@Cloud Synergy.com. To be eligible, the credit request must be received by us by the end of the second billing cycle after which the incident occurred and must clearly (a) indicate in the subject line that it is a Service Credit request; (b) specify the dates and times of each incident of non-zero Error Rates that you are claiming; and (c) document the errors and corroborate your claimed outage (any confidential or sensitive information in these logs should be removed or replaced with asterisks).

If your request is validated by us, then we will issue the Service Credit to you within one billing cycle following the month in which your request is confirmed by us. If you do not timely submit a written request for a Service Credit, you forfeit all rights to receive a Service Credit for billing cycle in question.
